**The diagram below shows a comparative assessment of the test taker's scores on the components of this test and the respective mean values of scores obtained by all takers of this test so far.**

**Components of the Employee Values and Attitudes Test and the test taker's scores:**

**1. Confidence:** Confidence refers to the belief in yourself and your abilities, and includes the traits of self-assurance and assertiveness, as well as sense of security. The test taker's score on this component is **86 out of 100**. The mean score on this component is 64 out of 100.

Your score shows that you are self-assured, self-reliant, secure and certain. You are comfortable in your own skin. You know how to handle criticism and disapproval. So, you express your views and opinions freely. You make your decisions independently, though you would not let a useful piece of advice go unheeded.

**2. Curiosity:** Curiosity implies taking an interest in ongoing experience for its own sake; exploring and discovering. The test taker's score on this component is **80 out of 100**. The mean score on this component is 63 out of 100.

You are a very curious person. Always eager to learn, you miss no opportunity to explore anything that is new. It is not enough for you to know what is obvious or lies on the surface. So, you dig deep into matters that interest you strongly. However, even as you are highly inquisitive, you are not intrusive.

**3. Emotional Maturity:** Emotional Maturity includes composure, impulse control, resilience, the ability to accept one's limitations and handling criticism with grace. The test taker's score on this component is **71 out of 100**. The mean score on this component is 68 out of 100.

Your score on this component indicates that your emotional maturity level is high. You have good control over your emotions which prevents you from reacting impulsively when confronted with stressful or difficult situations. You have the ability to take criticism in your stride. You are resilient, so that you are able to recover from setbacks quite fast. You know how to strike a balance between your professional and personal life.

**4. Helpful Attitude:** Helpful Attitude is the trait of being kind, empathetic, courteous, approachable and cooperative. The test taker's score on this component is **93 out of 100**. The mean score on this component is 69 out of 100.

You are an extremely helpful person. You show a high degree of readiness to help, even if it requires you to go out of your way. You are easily approachable. So, people seek your help or assistance without hesitation. You are very high on empathy and can sense others' feelings even when they are not so obvious. You are very cooperative and courteous too.

**5. Integrity and Honesty:** Integrity and Honesty include such traits as trustworthiness, moral uprightness, and sense of personal responsibility and accountability. The test taker's score on this component is **89 out of 100**. The mean score on this component is 66 out of 100.

Your score indicates that you are a person of impeccable integrity. You are very honest and highly principled. In other words, you are extremely trustworthy. You have a very strong sense of personal responsibility and accountability.

**6. Openness to New Ideas:** Openness to New Ideas is the trait of being open-minded. It refers to receptiveness to new ideas and experiences, as well as to opinions different from one's own. The test taker's score on this component is **85 out of 100**. The mean score on this component is 57 out of 100.

You exhibit a very high degree of openness to new ideas. You have opinions of your own - strong ones sometimes - yet you keep your mind open to other shades of opinion. You regard learning as a lifelong process. So, you are game for anything that enhances your stock of knowledge and helps you grow as a person. Being highly flexible and open-minded, you are able to ensure that you do not fall into a rut.

**7. Self Discipline:** Self-discipline refers to the power to discipline one's own feelings, desires, etc., and includes willpower, diligence, time management ability, organizing ability, and goal-orientation. The test taker's score on this component is **90 out of 100**. The mean score on this component is 67 out of 100.

You are a very self-disciplined person. You are highly diligent and have a very strong willpower. This allows you to manage your time excellently and attain the goals that you set yourself. You are very good at organizing space and things.

**8. Sense of Responsibility:** Sense of Responsibility implies being conscious of one's obligations. The test taker's score on this component is **100 out of 100**. The mean score on this component is 66 out of 100.

You exhibit a very high sense of responsibility. Fully conscious of your duties and obligations, you are sincere in their execution. You go to great lengths to follow through on the commitments made. You possess a very strong sense of personal accountability, so that, you own up to your responsibility for all that you say or do.

**9. Work Drive:** Work Drive refers to motivation at and enthusiasm for work, and the disposition to invest high level of time and energy into job and career. The test taker's score on this component is **85 out of 100**. The mean score on this component is 68 out of 100.

You have a very high level of work drive. You are very enterprising and look forward to undertaking new projects and initiatives. You have a very strong disposition to invest extra time and energy into your job and career. Not the one to dwell on past achievements, you believe in moving on in life. The idea of a stable and secure life has little charm for you.
